GRAND VIZIER RETIRES

The Grand Vizier's Ball sees the retirement of long-serving Politburo member Dillon Burke. Dillon joined **K.A.O.S.** in 1989, had the best night of his life at a party later that year and first served on the Politburo in 1992. Dillon was Dictator in 1993 and went on to be Grand Vizier in 1994 and 1999. He has also made a non-trivial contribution to the field of Antarctic Geopolitics. You can ask him about that if you want to be bored to death with a diatribe on the plight of the Patagonian Toothfish.

When asked why he was stepping down Dillon said "It is time for me to move on and do other things with my life, like this PhD the University is funding me for. It has been an enourmous amount of fun and I don't regret the time wasted on KAOS at all".

At this time the Dictator is yet to announce who may be promoted to fill the vacant position on the Politburo. "We'll just find some first year that doesn't run away fast enough." He is rumoured to have said. "Oh no" said another source inside the Politburo "We'll have to stop looking pretty and do some work now".

Kaos.org.nz

The Web Development Team are hoping to expand the content available on the kaos.org.nz pages this year. One area that we need help in is the club archives. We are seeking copies of **K.A.O.S.** related stuff that has been produced over the last nineteen years. If you have any great memorabilia or photographs we would really like to see copies. Contact jwm@plain.co.nz or hairy@sloth.southern.co.nz for more information.

Due to popular demand a second run of the **I'm On The Side Of The Angels** t-shirt is being considered. The run will proceed if at least twenty orders are received. If you missed out on this great t-shirt you have another opportunity to purchase one for the amazingly resonable price of \$25.00.

Orders must be placed with Dillon Burke before Friday 21 May. Dillon can be contacted at 351-2331.

Do Not Sniff

BUG HIVE CLEANSED!

On Friday 30 April roughly twenty-five **K.A.O.S.** agents gathered together in the UCSA carpark for the Starship Troopers round. After some mandatory bickering, Marine Officers and a Hive Queen were elected. The Bugs then went and laid their ambushes while the Marines established their tactical doctrine.

Overall the heavy weapons carried by the Marines proved telling on the night. In contrast to last year the Marine discipline was tight and Bugs were unable to raven and slay. The first game ended in a clear Marine victory when Hive Queen O'Sullivan was soaked to

CREDITS FOR THE GRAND VIZIER'S BALL

The Thanks of the Grand Vizier goes out to all the wonderful people who helped make everything at the Grand Vizier's Ball possible, especially John Morten, David Maclaggan, Sharon Henry, Dave of The Drawing Room, Angela for all the videos, Matt Powell for the cartoon, and Matt for the Video Projector. Souvenir ties are available from the Grand Vizier at 1:00 am.

If you don't want to writhe in the fires of Hell, unlike the poor unfortunates above who decided that they couldn't make it to the Grand Vizier's Ball, then you had better start planning for upcoming round of Millennial Parties and – you had probably forgotten – 2000 sees the 20th Anniversary of **K.A.O.S.** at the University of Canterbury. Don't forget to buy the T-shirt!

Little did he realise that the reason he was ostracised by the other students had nothing to do with his affiliation with the so-called "Fez and Pantaloon Mafia". It was simply because his name was Doris.

death.

To even things up the GMs ruled that for the last game the Marine reserve ammunition supplies were 'defective' and that their heavy weapons (the garden hose 1500 Super Soaker Sweepstreeters) were suffering a mysterious malfunction. The Marines then formed a defensive perimeter in a clearing and attempted to hold out for five minutes.

It was all over in four minutes. Wave after wave of bug warriors tore the marines into tiny little pieces. Next time we think both sides should have waterpistols though.
